

PARENT / CARER PRIVACY NOTICE

WHY DO WE COLLECT AND USE PUPIL INFORMATION?

We collect and use pupil information under the principle of the General Data Protection Regulations (GDPR) which states that data is used for “specified, explicit and legitimate purposes”. We use pupil data to:

- support pupil learning
- monitor and report on pupil progress
- provide appropriate pastoral care
- assess the quality of our services
- comply with the law regarding data sharing

Pupil information which we collect, hold and share include:

- personal information (i.e. name, unique pupil number and address)
- characteristics (i.e. ethnicity, language, nationality, country of birth and free school meal eligibility)
- attendance information (i.e. sessions attended, number of absences and absence reasons)
- ID verification documents for Nursery Provision (i.e. birth certificate)

COLLECTING PUPIL INFORMATION

Generally, the school / trust receive personal data from the individual directly (including, in the case of pupils, from their parents / carers). This may be via a form, or simply in the ordinary course of interaction or communication (such as email or written assessments).

However, in some cases personal data may be supplied by third parties (for example another school, or other professionals or authorities working with that individual).

We process pupil information in order to “exercise the official authority vested in us” to deliver education to our pupils. Whilst the majority of pupil information provided to us is mandatory, some of it is provided to us on a voluntary basis. In order to comply with GDPR we will inform you when your consent is required, for example in respect of racial or ethnic origin, religion, or where we intend to use photographs or biometric finger prints.

STORING PUPIL DATA

We keep personal information about pupils and parents/carers whilst the pupil is attending our school / trust. We may also keep it beyond their attendance at our academy if this is necessary in order to comply with legal obligations.

WHY WE SHARE PUPIL INFORMATION

We are required to share information about our pupils with the (DfE) under Regulation 5 of The Education (Information about Individual Pupils) (England) Regulations 2013. THE NATIONAL PUPIL DATABASE (NPD)

The NPD is owned and managed by the DfE and contains information about pupils in schools in England. It provides invaluable evidence on educational performance to inform independent research, as well as studies commissioned. It is held in electronic format for statistical purposes. This information is securely collected from a range of sources including schools, local authorities and awarding bodies.

We are required by law, to provide information about our pupils to the DfE as part of statutory data collections such as the school census. Some of this information is then stored in the NPD. The law that allows this is the Education (Information About Individual Pupils) (England) Regulations 2013.

To find out more about the pupil information we share with the department, for the purpose of data collections, go to:

The Department may share information about our pupils from the NPD with third parties who promote the education or wellbeing of children in England by:

- conducting research or analysis
- producing statistics
- providing information, advice or guidance

The Department has robust processes in place to ensure that the confidentiality of our data is maintained, and there are stringent controls in place regarding access and use of the data.

Decisions on whether DfE releases data to third parties are subject to a strict approval process and based on a detailed assessment of:

- who is requesting the data
- the purpose for which it is required
- the level and sensitivity of data requested
- the arrangements in place to store and handle the data.

To be granted access to pupil information, organisations must comply with strict terms and conditions covering the confidentiality and handling of the data, security arrangements and retention and use of the data.

ARTIFICIAL INTELLIGENCE (AI)

We are harnessing the opportunities and benefits Artificial Intelligence (AI) can bring. The use of AI within our Trust is tightly controlled. We use AI to help automate some of the manual tasks we need to complete. AI helps us with data driven decision making, repetitive and rule-based tasks, and predictive analytics. We do not routinely use personal data when using AI. If we do use personal data, we ensure a Data Protection Impact Assessment has been completed to identify any risks in the process for data subjects.

SMART TECHNOLOGY, AI AND YOUR FAMILY'S DATA

At Inspire Partnership, we use **innovation** to help our children 'reach their full potential' and to keep our school community connected. We use secure digital tools (such as Arbor, Class Dojo, and CPOMS) that may use 'Smart Technology' or Artificial Intelligence (AI).

We use these tools to help teachers plan lessons, track pupil progress, and communicate safely with you. To protect your family's privacy, we ensure that:

- **People are in charge:** We do not use computers to make 'solely automated' big decisions about your child's grades or your relationship with the Trust. A member of staff (a '**Human in the Loop**') always reviews these tools.
- **Your information is secure:** Personal details for both you and your child are kept in protected systems. We never share your work, names, or contact details with public AI tools to 'train' them.
- **High Standards:** We only use platforms that follow the **Data (Use and Access) Act 2025** and meet our strict safety requirements.

You have the right to ask how we use these tools or to request a human review of any automated process. Please contact your school office for more information.
